- Advised senior executives on Agile transformation strategy, roadmaps and delivery measures; addressed organizational barriers through training and workshops.

Sogeti | Manager-Consultant

Client: Holland & Knight

Sep 2014 - Sep 2015

- Created the HR-system RFP and vendor evaluation with senior management: 10 vendors invited, 5 shortlisted and 2 finalists demonstrated, with end-user scorecards supporting selection.

Earlier consulting experience includes additional Sogeti assignments, Infosys and Shell. Full chronology and nine applications are included in the detailed CV.

PRODUCT LEADERSHIP IN PRACTICE

Applications created by Rajai Rahaman, using AI-assisted development.

Kanban Lite | Deployed web application

Created a multi-user workspace that connects portfolio oversight to daily execution through shared task records, multiple project views, permissions and risk reporting.

Scrum Lite | Deployed web application

Created a connected delivery workflow from backlog and Planning Poker through sprint execution, reviews and owned improvement actions, with reporting tied to work records.

CineFlow | Private beta

Created a film-production workspace linking scene and shot decisions with schedules, budgets, resources, traceable reviews, call sheets and team communication.

EDUCATION

Hanzehogeschool Groningen | 2000-2004
